1. Tim Customer-Service: Implementasikan program loyalitas berbasis NPS untuk mengkonversi pelanggan puas menjadi brand ambassador aktif dan sumber ulasan organik berkualitas tinggi.
2. Tim Product: Rencanakan upgrade modul kamera ke resolusi 720p/1MP dalam revisi hardware berikutnya dan rilis software enhancement driver untuk unit yang sudah beredar di pasar.
3. Tim Product & Engineering: Koordinasikan dengan OEM untuk mengkualifikasi baterai berkapasitas lebih tinggi (≥ 54 Wh) sebagai opsi upgrade SKU dan perbarui benchmark daya tahan pada halaman listing produk.
